

## MV Thai Sea

### Trips, Price and Schedule 2009-2010

#### Liveboard TS 1 Thailand

We first visit the world class reefs at the less visited Surin islands. Divers and snorkelers will both be amazed at the huge variety of coral and marine life on offer here. Second day we will go to Koh Bon and Koh Tachai where we will have a good chance to spot Manta Ray. The last day is dedicated to diving world famous Richelieu Rock. This is the top spot in Thailand for Whale Shark encounters and with 3 dives you have a good chance of meeting one.

Surin Island, Richelieu Rock, Koh Bon and Koh Tachai  
3 days 3 night, 11 dives  
Price: **18.500,- Baht**

#### Liveboard TS 2 Thailand

This is the trip that so many divers can't get enough of and keep coming back to Thailand year after year. Abundant underwater life, beautiful coral formations, dramatic boulders, reefs and walls and a high chance to encounter big aquatic life on almost every trip.

Similan, Koh Bon, Koh Tachai, Surin Island, Richelieu Rock  
5 days 5 night, 19 dives  
Price: **26.800,- Baht**

#### Liveboard TS 3 Myanmar (Burma)

Sailing around the Mergui archipelago, with it's hundreds of uninhabited islands and countless pinnacles. Recommended for the more experienced divers, we will search for sleeping sharks, swim into dark caves, "hunt" for the abundant small life (seahorses, frogfish, ghost pipefish...) and relax on the totally virgin and untouched white powder sand beaches.

High Rock, Shark Cave, North Twin, Macleod Island, Western Rocky, Seafan Forrest.  
5 days 5 night, 19 dives  
Price: **32.800,- Baht**

## Liveboard TS 4 Myanmar (Burma)

Our very special week-long live-aboard trip into the “undiscovered” Burmese Archipelago. This is indeed one of the most exciting live-aboard trips you can find anywhere. With over 900 islands we will be far away from other boats and diving in one of the most beautiful and uncharted places in the world. The variety here is amazing and every trip is unique. Burma is famous for its large animal encounters with sharks, whales, large rays, dolphins and occasionally killer whales! Macro enthusiasts will not be disappointed either as the area is blessed with an abundance of seahorses, pipefish, nudibranchs, cephalopods and crustaceans. There are creatures here found no-where else and even the chance to find and photograph yet to be described species. We will visit underwater pinnacles, wander around underwater plateaus, go deep, drift dive with the current, enter dark caves and go into swim-throughs. Sometimes we may dive lakes inside islands and even search for and discover new dive sites. It isn't “all-go” and there will be plenty of opportunities to visit and relax on the many secluded islands and beaches on offer. Fantastic natural encounters above water are also available with opportunities to visit amazing mangrove systems and see large flocks of hornbills and flying foxes, sea eagles, kingfishers, reptiles and wild pigs. We guarantee that a Burma trip will be a once in a lifetime experience and one you will never forget.
